

Dear Community Partner:

ChristianaCare is hosting a special community event to vaccinate adults 65 and older who live in the communities most impacted by COVID-19.

Date: February 5, 2021

Time: 11:00am to 6:00pm (See below for the appointment times)

Location: Community Education Building - 1200 N. French Street, Wilmington, DE

We ask that each of you contact individuals served by your organization, who are 65 years of age or older to receive the COVID-19 vaccine.

Here's what you need to know...

- *Vaccination hours assigned to the individuals you invite to this event will be 12:00pm to 2:00pm.*
- *Please obtain the name, phone number and date of birth for every individual that you recruit to receive the vaccine. Please enter this information in the excel spreadsheet provided.*
- *Please ask individuals to bring a photo ID (only to be used as proof of age).*
- *The vaccine is free of charge.*
- *Vaccine doses continue to be in limited supply, based on shipments we receive from the state. A limited number of doses will be available during this event and will be provided only to individuals who have been signed up before Friday, February 5.*
- *The vaccination process itself takes about 20 minutes, so it is recommended to plan for 30 minutes to allow for wait times.*

About receiving the second dose:

- Everyone who is vaccinated at this event will be entered into the ChristianaCare list for second vaccination. They will be contacted when vaccine supplies become available.

Thank you for helping us to reach the community members most impacted by COVID-19..
